

# Santa Rosa

Commitments to meeting  
community greenhouse  
gas reduction goals.

## 5.6 Santa Rosa

The City of Santa Rosa was the first local government in the county to adopt its own Communitywide Climate Action Plan (CCAP) and a GHG emissions target of 25% below 1990 levels by 2020. It also adopted a Municipal Climate Action Plan (MCAP) in 2013.

The implementation of Santa Rosa's CCAP and MCAP will contribute substantially to countywide GHG reductions as presented in Chapter 3. The City will participate in the coordinated implementation activities outlined in Chapter 4 to advance measures in the adopted CCAP in partnership with the RCPA and other jurisdictions. Santa Rosa will continue to use its adopted CAP for project-level GHG impact analysis requirements under CEQA.

The City of Santa Rosa's CCAP and other efforts to reduce greenhouse gas emissions can be found at [http://www.srcity.org/environmental\\_stewardship/ghg](http://www.srcity.org/environmental_stewardship/ghg).
